BRIDGE MANAGEMENT SYSTEM
INVENTORY DATA SHEET

BRIDGE NUMBER : B

STRUCTURAL FEATURES

General data : Type bridge : 07 h
Type deck : 07 i
Type deck material : 03 j
Type abutment (left) : 06 k
Type abutment (right) : 06 k
Type piers : 97 l

Type parapet/railing : 13 m block construction
Type wearing surface : 01 n
Type expansion joints : 97 o
Approach slab : Y N V
Abutment gallery : Y M U
Type bearings : 97 p

Span data :

Number of spans : 01

Span #	Span length (m)	Deck depth (m)	Type span	Type deck	Type deck mat
01	77		07 q	07	03
02					
03					
04					
05					
06					
07					
08					

Pier data :

Number of piers : 01 r

Pier #	Type pier	No. of columns	Height (m)	Thickness (m)	Width (m)	Type found	Type found mat	Type bearings Row 1	Type bearings Row 2
01									
02									
03									
04									
05									
06									
07									

Abutment data :

Position	Type abutment	Height (m)	Type found	Type found mat	Type bearings
Left	06	5.3			97
Right	06	5.3			97

Expansion joints :

Number of expansion joints : 01

Joint #	Position	Type exp. joint	Joint length(m)
01	r A L s	97	16 78
02	A R	97	16 78
03			
04			
05			
06			
07			
08			
09

INVENTORY DATA SHEET

BRIDGE NUMBER : B

DESIGN AND CONSTRUCTION DETAILS

Design firm :
 Contractor :
 Completion date (yyyy) :
 Date major rehabilitation (yyyy) :
 Design live loading :
 Design code :
 Designed for super loads? :
 Weight/load restriction : Y N U If yes :
 Design return period(years) :
 Design flood discharge(m³/s) :
 Design freeboard(m) :
 Scour protection :
 Angle between Pier and River flow(degrees) : NA
 Risk of scour : Y N U
 Design scour depth(m) :
 Max scour depth(m) :

GEOMETRY, DIMENSIONS & CLEARANCES

Overall bridge length (m) :
 Overall bridge width (m) :
 Width between parapets/railings (m) :
 Min. bridge roadway width (m) :
 Approach roadway width (m) :
 Angle of skew (degrees) :
 Radius (m) :
Clearances on road carried (principal feature) :
 Vertical clearance (m) :
 Horizontal clearance (m) :
Clearances on road passing underneath (secondary) :
 Vertical clearance (m) :
 Horizontal clearance (m) :

ROAD CONFIGURATION AND TRAFFIC

On road carried (principal feature) :

Number of lanes :
 Traffic flow directions :
 Road class :
 Number of footpaths :
 ADT :
 Truck factor(%) :
 Year of count (yyyy) :

On road passing underneath (secondary) :

Road class :
 ADT :
 Truck factor (%) :
 Year of count (yyyy) :

MAINTENANCE AGREEMENTS/OTHER AUTHORITIES

Agreement no. :

Agreement location :

Authority	Responsibilities	Share of costs

SERVICES

Type	Number & Size/Dia	Position/location	Responsible authority
Electric cables			
Telcom cables			
Sewers			
Water mains			
Stormwater pipes			
Spare ducts			
Other			

ARCHIVE DATA

Detail design drawings available :

FACTORS INFLUENCING FIELD INSPECTION

Access : Piers : 01 U
Bearings : 01 V
Deck soffit : 01 W
Abutment galleries : 01 X
Inside of box girder : 01 Y

Additional information on access :

ADDITIONAL REMARKS

Type of crossing is road over rail. Rail has been stolen so looks like road over dirt road.
